Overall Teacher's Report

"Sammy" seems to be unconcerned about his failing grades. He spends all of his time focused on election and invests no time to the people, playing well with others, or concerning himself with real priorities.

Sammy seems to be unsympathetic and completely without any sense of urgency or care about how he treats others or how his actions affects others.

Based on the behavior I have seen, Sammy shows significant signs of Grandiose Narcissism.

Healthy Economy is BALANCED
NO Inflation. NO Recession.
